## Hackathons

- **CareCommune**  
[Mentioned in the article](#)  
[Website](#)
  - Contributed to CareCommune by shaping an intuitive front-end interface while gaining proficiency in GSAP, amplifying project interactivity. Demonstrated a multifaceted role in project development.
- **MineBot**  
[Code](#)
  - Created an OpenAI-powered chatbot, in Smart India Hackathon and concurrently spearheading all the user-friendly interface designs. This experience facilitated significant expertise in Large Language Models (LLMs) and holistic project contribution
- **Axis Bank**  
[Website](#)
  - Played a pivotal role in designing the front end, overseeing form creation, responsiveness, and team management, exemplifying a holistic contribution towards project success and collaborative achievement.

## Projects

1. **Mi Online Store**  
[Website](#)

Developed a React MI Store clone with a strong emphasis on front-end features, replicating e-commerce functionalities. The project highlights a commitment to a user-friendly interface and clean, efficient code, showcasing a passion for enhancing web applications

**Tech Stack:** React, Bootstrap, React Router
2. **Car Rental**  
[Website](#)

Skillfully engineered an interactive car rental website, implementing personalized booking functionality and designing an engaging front-end interface. The primary focus was on creating a seamless and user-friendly experience for visitors, underscoring a commitment to excellence in web development.

**Tech Stack:** React, Bootstrap, React Router
3. **YouTube Clone**  
[Website](#)

Crafted a YouTube clone, implementing core features using React and leveraging the YouTube v3 Rapid API. The project showcases a dedication to web development and a commitment to delivering a high-quality user experience.

**Tech Stack:** React, Material-UI, Axios, React Router
4. **Placemeto**  
[Website](#)

Contributed to and optimized an in-house project designed to facilitate student-alumni interactions and learning experiences. Played a pivotal role in enhancing the project's functionality and overall user experience, underlining a strong commitment to driving innovation and value.

**Tech Stack:** HTML, CSS, Bootstrap, and JavaScript.

## Activities and Certificates:

- [Problem-Solving](#) (hackerrank) | [Python](#) (hackerrank)
- JavaScript by Meta ([link](#))
- Data Analysis Using MS-EXCEL ([link](#))

## Education

- SRM Institute of Science and Technology ( 2021 - 2025 )  
{ GPA : 8.6 }
- Kendriya Vidyalaya ( 2008 - 2020 )  
{ 12<sup>th</sup>: 86% || 10<sup>th</sup>: 91% }
